

5 GOOD REASONS TO REPLACE YOUR OUTDATED CUTTING EQUIPMENT

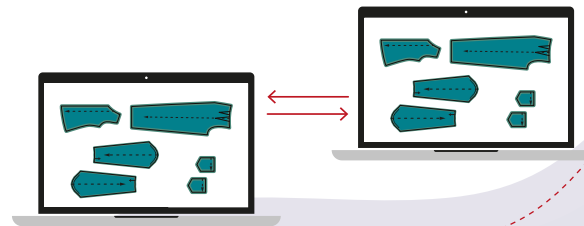

Single-ply cutters vs. aging fabric cutters
10 years and older

01

MAXIMIZE CUTTING-ROOM PRODUCTIVITY WITH SEAMLESS CONNECTION

UP TO **98%**

MACHINE AVAILABILITY
with remote monitoring

02

IMPROVE THROUGHPUT TO ACHIEVE HIGHER PRODUCTIVITY

Cut more fabric faster with advanced cutting technology

03

ACHIEVE CONTINUOUS IMPROVEMENT THROUGH DATA INSIGHTS

Analyze production data captured by embedded sensors

04

DERIVE MORE CUT PIECES USING HIGH-PRECISION CUTTING

UP TO **5%**

MATERIAL SAVINGS
by reducing buffer

05

IMPROVE PROFITABILITY WITH LOWER RUNNING COSTS

- Reduced energy consumption with more efficient vacuum systems
- Cut consumable costs with improved Cutting Head & Sharpening Systems

LECTRA SERVICES: A COMPLETE PROGRAM TO MAXIMIZE THE LIFE AND PERFORMANCE OF YOUR CUTTING EQUIPMENT

Power Service Contracts are at the heart of Lectra's cutting room solutions. Constantly connected to our Call Centers via inbuilt sensors and counters on our systems, **Lectra's experts take preemptive action before failure even occurs.**

These unique services make our equipment some of the most reliable on the market and enable you to achieve your production targets.

99% of software-related and 80% of manufacturing-related queries

are resolved remotely and quickly

Online support

Get priority access to a regional call center for a **fast, reliable remote diagnosis** and the shortest possible time to repair.

Reporting & My Support

Receive **individualized follow-up and monthly reports** from Customer Care experts for informed decision-making and optimal production planning.

Software upgrades

Benefit from **enhanced features** and meet **evolving IT industry standards at all times** for efficient operation in your environment.

On-site support

Receive a field technician visit inclusive of **parts and labor in instances** where remote intervention does not resolve technical issues.

Preventive maintenance

Prevent downtime while controlling maintenance costs through a proactive maintenance strategy with **scheduled parts replacement.**
